Our caregiving philosophy

We recognize that every individual deserves to be treated with dignity and respect. We place the highest value on referring quality caregivers and providing excellent customer service. Our referral services allow you or your family member to stay at home, and to really enjoy the quality time that you are able to spend together. We have a unique understanding of the pressures associated with the need for quality caregivers; that's why Dependable was founded over 45 years ago. We are a third generation family-owned company, which was created to refer the type of care that you would expect from family.
